3

4 Select your language (if needed)

1. Press ▼ or ▲ to select [Initial Setup], and then press **OK**.
2. Press **OK** to select [Local Language].
3. Press ▼ or ▲ to select your language, and then press **OK**.
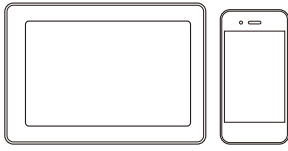

5 Select a device to connect to your machine

**Computer**

Go to 6 and follow the instructions.

NOTE:
We recommend configuring wireless settings from your computer.

Mobile Device

Go to 7 and follow the instructions.

6 Connect your computer

RICOH regularly updates firmware to add features and apply bug fixes. To check for the latest firmware, visit http://www.ricoh.com/support/.

Download

Put the installation disc into your CD/DVD drive, or download the Full Driver & Software Package including Mac and XPS at:

http://www.ricoh.com/support/

If you are using a recently released operating system on your computer, visit the above websites for updated driver and software information.

▶ **Follow the on-screen instructions and prompts.**

For Windows®:
If the screen does not appear automatically, go to **Computer (This PC)**. Double-click the CD/DVD-ROM icon, and then double-click **start.exe**.

For Mac:
For full driver functionality, we recommend choosing the **CUPS driver** when adding a printer.

▶ **Finished**

Can't Connect? Check the following:

| Wireless network | ▶ | Restart your wireless access point/router (if possible). | ▶ | Restart your machine and computer, and then go to 6. | ▶ | If still not successful, go to 7. |

| Wired network / USB connection | ▶ | Disconnect the cable. | ▶ | | | |

7 Alternative wireless setup

Find your SSID (Network Name) and Network Key (Password) on your wireless access point/router and write them in the table provided below.

SSID (Network Name)	
Network Key (Password)	

SSID: XXXXXXX
Network key: XXXX

If you cannot find this information, ask your network administrator or wireless access point/router manufacturer.

To select each menu option, press ▲ or ▼, and then press **OK** to confirm. Select [Network] > [WLAN] > [Setup Wizard], and then press ▼.

Select the SSID (Network Name) for your access point/router and enter the Network Key (Password).

When the wireless setup is successful, the LCD displays [Connected].

If setup is not successful, restart your machine and your wireless access point/router, and repeat 7.

For Computer

Go to 6 to install software.

For Mobile Device

Print using the mobile print service. For more information, see the User's Guide.
